A World of Listening

For over 32 years Sangean has been making world class radios.

From modest beginnings, Sangean has grown to become the largest radio manufacturer in the world, winning many industry awards and receiving recommendation after recommendation for innovative design and trend setting quality.

Today, 500 different models later and manufacture of millions, Sangean produces the most complete line of radios of any radio manufacturer in the world.

Constantly developing new concepts and working at the cutting edge of technology, Sangean will continue to make the worlds best radios to the highest quality standards regardless of the competition.

An unwavering devotion to quality is what helped build the Sangean company to be what it is today, and will be the cornerstone of continuing to build our company in the future.
